Detailed Safety Instructions:

Please note the following safety notes to avoid malfunctions, damage or physical injury:

- Be careful when assembling the vinyl record box. Cordless screwdrivers and sharp screws may cause damage or injuries if handled careless.
- Do not use the vinyl record box as a stool or seating accommodation. The record box should also not be used as a transport trolley for heavy items. There is an acute risk of breakage.
- The maximum load capacity of the record box is 25 kg.

Box Contents

- Crate bottom with four wheels

- 2x thin side walls

- 2x front wall and back wall

- A bag of woodscrews

Assembly of the Vinyl Record Box

First, screw the back wall onto the side wall. Use one screw (25mm) for each wooden strut of the side wall.

Repeat this process and screw the front walls and back walls together to form a cuboid.

Put the crate bottom onto the cuboid as shown in the image above. You can already see that there are predrilled screw holes available to fix the crate bottom to the record box.

The wheels on the crate bottom are fixed with four screws. Two of these screws will already be screwed with the delivery per wheel. Fix the remaining 2 screws (20mm) to the wheels. Afterwards fix the crate bottom to the front wall and back wall using the preexisting screw holes.

Cleaning

Use a soft brush to avoid scratching the wooden surface as well as a damp cloth. Dust the record box from time to time. Do not use any chemicals to clean the vinyl record box.
